- Olympus 『TG-610』 / 『PT-051』

How to attach

- Apply a little amount of grease (supplied with compatible protector) on the threaded parts of the “Step-Up Ring 52-67” to prevent anchoring by salt build-up or electrical erosion between the “Step-Up Ring 52-67” and compatible protector/lens.
- Attach the male threaded part of the “Step-Up Ring 52-67” on the threaded ring of protector and slowly screw it clockwise until lightly snagged. Make sure not to screw it too tight.

Handling precautions

- Do not subject the product to large shocks or vibrations to avoid damage and deformation which may cause “Step-Up Ring 52-67” to get stuck with the protector.
- Always remove this product from protector when not in use to prevent anchoring of this product and combined protector due to salt build-up or electrical erosion.
