How to use :

· **When attaching one 28LD Mount on compatible product in Group ①～④** 【LD Lens Holder S/W】

Attach the LD Lens Holder [screw] and the LD Lens Holder Base on compatible arm as shown in images below so that the arm seats in groove between the lens holder and the base.   *INON logo on the LD Lens Holder Base must face you.   Then fix them by tightening the thumb knob screw.

Refer to 「D Holder Extension Bar」 user manual for detail of using with the 「D Holder Extension Bar」.

· **When attaching two 28LD Mounts on compatible product in Group ②～④** 【LD Lens Holder W only】

Attach the LD Lens Holder [screw] and the LD Lens Holder [hole] on compatible arm as shown in images below so that the arm seats in groove between the two parts.   *LD Lens Holder (hole) must face you. Then fix them with the Cap Screw by using supplied Allen Wrench.   ***DO NOT tighten too much to avoid damage on the LD Lens Holder***.
· **When attaching one 28LD Mount on compatible product in Group ⑤** 【LD Lens Holder W / LD Lens Holder for Float Arm】

Attach the LD Lens Holder [hole] on compatible product as shown in image below so that the Lens Holder base on the compatible product seats in groove of the LD Lens Holder [hole].   Then fix it by the Cap Screw supplied with compatible product.

DO NOT use supplied cap screw comes with this product or compatible product in Group ⑤ will be damaged.

DO NOT tighten too much to avoid accidental damage on the LD Lens Holder.
