- INON Stick Arm (XS-T/SS-T/S-T/M-T)
- INON Multi Ball Arm (SS-T)

3/8-16 UNC  
threaded hole

#### YS arm head

- INON Z Joint
- INON Quick Holder Set S-Z
- INON Quick Holder Set S-LF
- INON Quick Holder Set S-LE
- INON Quick Base M6W
- INON Quick Base S
- INON Single Light Holder LF
- INON Single Light Holder LE
- INON Rotatable YS Extension Bar

### Installation

- ① Attach the **YS Ball Adapter** to the arm ball and tighten it until it stops
- ② Align the **YS arm head** with the compatible product, then secure them using the **M8 thumbscrew** included with the compatible product.

③ Attach the "Ball Adapter-Grip" to the other arm ball on the handle side as in step  
 ①. Attach your hand strap, etc. to the strap eyelet as necessary.

### Before installing/handling precautions

- When attaching or detaching the YS Ball Adapter to or from the arm, always rotate it while holding the YS Ball Adapter, not the camera body. Failure to do so may damage the YS Ball Adapter or the attached equipment.**
- DO NOT** inquire of the camera manufacturer installation of this product as it is not under the control of the manufacturer. The user must take full responsibility for the installation/use of this product
- INON Inc.** shall not be liable for any failure of the housing, housing accessory or camera due to installation/use of this product.
- INON Inc.** shall not be liable in any way for any incidental damages (such as expenses incurred in taking pictures/footages or loss of profit that should have been gained by the pictures/footages) that may result from flooding or other problems caused by the installation/use of this product
- Installation and use of this product shall be deemed as full consent of the user to the above conditions.**

### Maintenance

- After use, rinse with fresh water to remove salt and other stains, and place in a well-ventilated area out of direct sunlight to dry thoroughly. **DO NOT** expose directly to fire or heat as this may cause deformation or damage.
- DO NOT** use organic solvents such as alcohol, benzene, thinner, or oils/chemicals such as rust inhibitors, lubricants, glazing agents, or detergents (especially alkaline detergents) when cleaning the product. Some of the components of this product may change when exposed to the above substances, such as melting or becoming brittle.
- Grease each thread of the ball adapter/M5 thumbscrew periodically to prevent rust and salt bite due to electrical corrosion.
- If the product is not used for more than a week, please remove and store it. Storing the product being attached on the combined product for extended period may cause deformation/damage due to continuous force applied to the combined product.
